### To Whom It May Concern

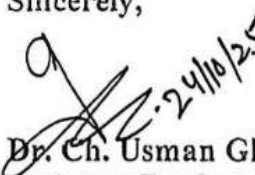

It is with great pleasure that I write this letter of recommendation for Saad Abdur Razzaq (20F-0292). I had the privilege of teaching Saad in Object Oriented Programming and Data Structures during his undergraduate studies in the Department of Computer Science at FAST-NUCES, Chiniot-Faisalabad Campus, Pakistan.

During this time, Saad proved to be one of the most brilliant and inquisitive students I have taught. His logical thinking, problem-solving ability, and deep curiosity set him apart from others. He often asked insightful questions that showed a rare understanding of complex topics and a genuine interest in exploring new ideas.

I personally know Saad well, as he often visited my office even in late hours to discuss how data structures can create real-world impact. His work consistently showed creativity, clarity, and precision. I strongly recommend Saad Abdur Razzaq for admission to your university. I am confident that his intelligence, curiosity, and determination will make him a valuable addition to your academic community.

If you need any further information, please feel free to contact me.

Sincerely,

  
Dr. Ch. Usman Ghous  
Assistant Professor

Department of Computer Science  
NUCES-CFD
