Passport: FU1072703 | **Date of birth:** 05/10/2002 | **Place of birth:** Riyadh, Saudi Arabia | **Nationality:** Pakistani | **Gender:** Male | **Phone:** (+92) 3036668942 (Mobile) | **Email address:** saadabdurrazzaq00@gmail.com | **LinkedIn:** [saadarazzaq](#) | **Address:** 37620, Faisalabad, Pakistan (Home)

● ABOUT MYSELF

Computer Science graduate and Machine Learning Engineer with a strong foundation in statistics, data architecture, and advanced algorithms. Experienced in building end-to-end ML solutions, optimizing localized deep learning models, and writing clean, scalable code. Passionate about turning complex mathematical concepts into practical, high-performance software.

● EDUCATION & TRAINING

31/08/2020 - 31/05/2024 - FAISALABAD, PAKISTAN

BSC. COMPUTER SCIENCE- NATIONAL UNIVERSITY OF COMPUTER AND EMERGING SCIENCES

Core Mathematical & Data Science Modules Studied:

- **Advanced Mathematics:** Linear Algebra , Calculus & Analytical Geometry , Differential Equations , Numerical Computing , Graph Theory.
- **Statistical & Computational Analysis:** Probability and Statistics , Data Mining , Design and Analysis of Algorithms.
- **Applied Intelligence:** Applied Machine Learning , Artificial Intelligence , Fundamentals of Computer Vision.

● ACADEMIC AND WORK EXPERIENCE

24/07/2024 - CURRENT

Freelance Machine Learning Engineer

Contracted by multiple fintech clients to architect and deploy end-to-end ML solutions for risk mitigation and quantitative decision support.

- **Algorithmic Trading & Forecasting:** Contracted to design and train predictive time-series models (LSTMs, Prophet) for stock price trends and volatility estimation, delivering actionable market insights for clients.
- **Credit Risk Infrastructure:** Built and integrated custom credit risk scoring frameworks using Logistic Regression, Random Forests, and Gradient Boosting, directly enhancing client loan approval accuracy and risk assessment.
- **Data Pipeline Automation:** Automated ETL pipelines using Pandas, NumPy, and SQL to streamline financial data ingestion, cleaning, and feature extraction from disparate client data sources.
- **Performance Optimization:** Maximized predictive accuracy and generalization across client datasets through rigorous hyperparameter tuning, cross-validation, and regularization techniques.

01/2024 - 06/2024

Business Analytics — Teaching Assistant

- Contributed to course delivery by designing assignments, quizzes, and lab exercises while providing guidance on data-driven business techniques.
- Supported learning in statistical analysis, exploratory data analysis, data visualization, and predictive modeling using Python and visualization tools, reinforcing both conceptual understanding and practical skills.

- Conducted tutorial sessions covering foundational mathematical data structures, algorithmic complexity (Big-O notation), and statistical modeling paradigms for undergraduate students.
- Assisted students with Python-based applications in machine learning, feature engineering, and model evaluation, strengthening both instructional quality and personal expertise.

● TECHNICAL PORTFOLIO

Projects

1. **EffiScribe**: Engineered an AI clinical platform using **OpenAI Whisper** and **FastAPI** to process unstructured multi-speaker dialogues into structured text with Large Language Models.
 - *Key Technologies: Python, FastAPI, React Native, Next.js, Whisper, NLP, LLMs.*
2. **Notive AI**: Architected a cross-platform audio engine using on-device, highly quantized **TensorFlow Lite** and **Whisper** sub-models via **Kotlin Multiplatform** and **LiveKit**.
 - *Key Technologies: Kotlin Multiplatform, TensorFlow Lite, Whisper, LiveKit, Audio DSP.*
3. **AI German Language Trainer**: Implemented digital signal processing (**DSP**) via **Pydub** and **Vosk** hidden Markov models for real-time acoustic feature extraction and phoneme-level pronunciation accuracy.
 - *Key Technologies: FastAPI, React, Vosk, Pydub, Digital Signal Processing, TTS.*
4. **Algorithmic Hub**: Built a high-performance **NumPy** and **Pandas** simulator to model, map, and benchmark the space/time computational complexity of 11 graph-search heuristics.
 - *Key Technologies: Python, Pygame, NumPy, Pandas, Graph Theory, Data Structures.*
5. **AutoGrade**: Authored an Optical Mark Recognition (**OMR**) engine utilizing **OpenCV** affine transformations and **NumPy** vector-quantized arrays for high-throughput pixel density matrix evaluation.
 - *Key Technologies: Python, OpenCV, NumPy, Pandas, FastAPI, Computer Vision, OMR.*

● SKILLS

Programming Languages

Python, C, C++, C#, MATLAB, R

Data Science & ML Libraries

NumPy, Pandas, SciPy, Scikit-learn, TensorFlow, Keras, OpenCV

Natural Language Processing (NLP)

SpaCy, Gensim, Flair, TensorFlow Hub

Databases & Cloud

PostgreSQL, MySQL, MongoDB, Docker, AWS

Web Frameworks & Visualization

FastAPI, Flask, Streamlit, Plotly, Seaborn, Matplotlib, LiveKit

Grading System Scale – FAST-NUCES (Pakistan)

Institution: National University of Computer and Emerging Sciences (FAST-NUCES), Pakistan

Grading System: The university follows a **4.00 CGPA system**.

Letter Grade	Grade Point	Percentage Range	Description
A	4.00	90 – 100	Excellent
A–	3.67	85 – 89	Very Good
B+	3.33	80 – 84	Good
B	3.00	75 – 79	Satisfactory
B–	2.67	70 – 74	Fair
C+	2.33	65 – 69	Adequate
C	2.00	60 – 64	Pass
C–	1.67	55 – 59	Below Average
D+	1.33	50 – 54	Poor (Low Pass)
D	1.00	45 – 49	Minimum Pass
F	0.00	Below 45	Fail

Key Notes:

- Maximum CGPA: **4.00**
- Minimum CGPA required for graduation: **2.00**
- The university uses both **CGPA** and **percentage equivalence** for evaluation.
- Transcript officially mentions **CGPA** and awarded **final grade**.

TO WHOM IT MAY CONCERN

I am pleased to write this letter of recommendation for **Mr. Saad Abdur Razzaq**, a student I had the pleasure of teaching **Fundamentals of Computer Vision** course during his final semester in the Computer Science program. He has consistently demonstrated a deep understanding of both theoretical concepts and practical applications, making him one of the most outstanding students I have ever taught.

Throughout the course, he stood out for his attentiveness and active participation. He asked insightful questions, which clearly showed that he was not only engaged in the lectures but also took the initiative to research computer vision topics independently. His intellectual curiosity and passion for learning were evident, and I was consistently impressed by his ability to grasp complex concepts and apply them in innovative ways.

I have known Mr. Saad Abdur Razzaq beyond the confines of the classroom, where he has shown a keen interest in research work. His dedication to learning and his proactive approach to seeking knowledge outside of class hours are qualities that set him apart from his peers.

He is one of the brightest and most capable students I have had the privilege to teach. His blend of theoretical knowledge, practical skills, and research interests, combined with his vision and execution of projects, make him an ideal candidate for any academic or professional opportunity. I am confident that Mr. Saad Abdur Razzaq will excel in whatever path he chooses, and I give him my highest recommendation.

Sincerely, 
Dr. Muhammad Fayyaz
Assistant Professor & Incharge

09 October 2024

TO WHOM IT MAY CONCERN

I am pleased to recommend **Mr. Saad Abdur Razzaq**, who excelled in my **Computer Networks** course in the Computer Science program. Saad consistently demonstrated a strong grasp of CN principles, and applied them effectively to real-world challenges. His semester project, a **Computer Networks Packet Tracer** that highlighted his technical proficiency and innovative approach.

Saad's intellectual curiosity and passion for studies were evident throughout the course. He regularly engaged in insightful discussions, explored topics beyond the syllabus, and contributed significantly to group projects. His excellent communication skills and collaborative spirit further set him apart as a leader among his peers.

I am confident that Mr. Saad Abdur Razzaq's talent and dedication will lead to great success in any academic or professional environment. I highly recommend him for any opportunity he pursues.

Sincerely,
Dr. Muhammad Umar Aftab
Assistant Professor

To Whom It May Concern

I am writing this letter of recommendation and appreciation for **Mr. Saad Abdur Razzaq S/o Mr. Abdur Razzaq**. He is a student of BS(CS) at National University of Computer & Emerging Sciences and has served as a Teacher's Assistant (TA) for mentioned courses and batch details.

Sub. Code	Course	Teacher Name	Cr. Hrs	Batch
BA 2006	Business Analytics	Mr. Muhammad Usman Joyia	3	Spring 2024

I found him to be very organized, dedicated to his work, and pleasure to work with. He has been a valuable resource throughout his TA ship and has been a great source of help for both students and lecturer. He has gathered expertise in both teaching and the course content itself and showed promising abilities throughout the semester.

This is to declare that National University of Computer & Emerging Sciences and the Department of Computer Sciences acknowledges his efforts as a competent individual and highly recommends him to serve as a teaching assistant for all other related courses.

Mr.-Muhammad Usman Joyia

VP, Customer Support,
Upwork Global Inc.

About Upwork Global Inc.

Upwork provides an online workplace, where freelancers provide online, virtual services to companies across the globe. The individual above is an independent contractor and not an employee of Upwork nor the clients to which the individual provides services. The freelancer offers his/her expertise to the public, using the freelancer's own equipment and assets and retains the possibility of profit and loss. Upwork does not control the freelancer's ongoing earnings. This statement is a confirmation of the work performed by this freelancer for his/her clients through the Upwork platform, and not a guarantee of future earnings.

SOFTWARE DEVELOPMENT & STRATEGIC COLLABORATION AGREEMENT

BETWEEN:

AECORA IT GmbH
VAT-ID: ATU70795516 | Commercial Register: FN 448570m

AND ARCANT GmbH
VAT-ID: ATU68052377 | Commercial Register: FN 398901w

Both located at:
IZ NÖ-Süd, Str. 2, Obj. M6/7A, 2355 Wr. Neudorf, AUSTRIA

Both represented by Managing Director:
Ing. Markus Matousek

hereinafter collectively referred to as "The Client",

AND:

Mr. Saad Abdur Razzaq (Lead/CEO at Effixly/PAKISTAN)

Business Address:
Near Govt. Girls Higher Secondary School,
Khurianwala, Jaranwala,
District Faisalabad, PAKISTAN

Tax/National ID: 33104-8781270-9

hereinafter referred to as "The Contractor".

1. Subject of Agreement & Core Focus

The primary subject of this agreement is the professional development, engineering, and maintenance of the Client's proprietary AI DISPATCH BOT FOR TAXI COMPANIES.

While the core focus remains on the AI Dispatch technology, the Contractor may also provide additional services as required.

The scope of work includes:

- Core Development: Engineering, programming, and scaling of the AI DISPATCH BOT.
- Backend & Infrastructure: Full responsibility for Backend Architecture, including Database Modelling, API integrations, and system logic.
- Hosting & Deployment: Management of the Hosting environment, configuration of Deployment pipelines (CI/CD), and ensuring server-side stability and scalability.
- AI Integration: Implementation of advanced LLMs and proprietary negotiation logic.
- Supplementary Services: Graphic design, video production, marketing, and sales support.

Specific requirements for the AI Dispatch Bot, its underlying infrastructure, and supplementary tasks will be agreed upon dynamically and fall under the terms of this contract.

2. Milestones, Delivery & Communication

Milestone-based Payments:

Compensation is paid upon the successful completion of predefined milestones for the AI Dispatch Bot or other tasks, agreed upon via WhatsApp, Email, or Project Management Tools (e.g., Jira, Slack, Trello, TBA)

Release of Assets:

Upon payment of each milestone, the Contractor is strictly obligated to release and push the latest versions of all work results (Source Code of the AI Dispatch Bot, High-Res Graphics, Video Files, etc.) to the Client's designated repositories (GitHub or similar TBA).

Official Communication Channels:

Official communication will take place primarily via WhatsApp, Email and Online-Meetings.

3. Payments

Method:

All payments shall be processed via Wise.

Flexibility:

Specific rates and budgets for development phases or marketing assets will be agreed upon on a short-term basis before the commencement of each phase.

4. Intellectual Property & Work for Hire

Ownership:

This is a "Work for Hire" arrangement. All rights, titles, and interests in any results (AI Bot Code, Algorithms, Designs, Videos, etc.) created under this agreement are the exclusive property of the Client (AECORA IT GmbH and ARCANT GmbH).

Transfer of Rights:

With the payment of each milestone, all intellectual property rights for that work are automatically and irrevocably transferred to the Client.

5. Confidentiality & Third Parties

Corporate Liability:

The Contractor shall maintain strict confidentiality regarding the AI Dispatch Bot's architecture, proprietary prompts, and business strategies.

Employee & Subcontractor Obligation:

The Contractor guarantees that all employees, freelancers, or third parties involved in the project (including staff at Effixly) are bound by written confidentiality and non-compete agreements at least as restrictive as this contract. The Contractor is fully liable for any breaches by its staff or partners.

6. Non-Compete Clause

The Contractor (including its owners, employees, and involved third parties) agrees not to develop, consult for, or be involved in any competing AI-based dispatching, booking software, or related transport-tech services in Taxi Business for a period of 24 months following the termination of this agreement

7. Termination

Either party may terminate this agreement with a written notice period of 90 days. Upon notice, the Contractor must ensure a full handover of the AI Dispatch Bot source code, credentials, description of Deployment, Database etc., and all project assets before the final payment is released.

8. Entire Agreement

This contract constitutes the entire agreement between the parties and supersedes all prior agreements, understandings, or arrangements, whether oral or written, relating to the subject matter.

No modification or amendment to this agreement shall be effective unless made in writing (including digital confirmation via official communication channels).

9. Severability Clause

If any provision of this agreement is or becomes invalid, illegal, or unenforceable, the validity and enforceability of the remaining provisions shall not be affected.

The parties shall replace the invalid provision with a valid one that comes as close as possible to the intended economic purpose of the original provision.

10. Governing Law and Jurisdiction

This agreement shall be governed by the laws of Austria. The exclusive place of jurisdiction for all disputes shall be Wiener Neustadt, Austria.
