TO WHOM IT MAY CONCERN

I am pleased to write this letter of recommendation for **Mr. Saad Abdur Razzaq**, a student I had the pleasure of teaching **Fundamentals of Computer Vision** course during his final semester in the Computer Science program. He has consistently demonstrated a deep understanding of both theoretical concepts and practical applications, making him one of the most outstanding students I have ever taught.

Throughout the course, he stood out for his attentiveness and active participation. He asked insightful questions, which clearly showed that he was not only engaged in the lectures but also took the initiative to research computer vision topics independently. His intellectual curiosity and passion for learning were evident, and I was consistently impressed by his ability to grasp complex concepts and apply them in innovative ways.

I have known Mr. Saad Abdur Razzaq beyond the confines of the classroom, where he has shown a keen interest in research work. His dedication to learning and his proactive approach to seeking knowledge outside of class hours are qualities that set him apart from his peers.

He is one of the brightest and most capable students I have had the privilege to teach. His blend of theoretical knowledge, practical skills, and research interests, combined with his vision and execution of projects, make him an ideal candidate for any academic or professional opportunity. I am confident that Mr. Saad Abdur Razzaq will excel in whatever path he chooses, and I give him my highest recommendation.

Sincerely, 
Dr. Muhammad Fayyaz
Assistant Professor & Incharge
Department of Computer Science
