Experience Letter

Date of Issue: Monday, 23rd June 2025

TO WHOM IT MAY CONCERN

This is to certify that **Saad Abdur Razzaq** worked with **ProActive Enterprises (Private) Limited** as an **Assistant Full Stack Developer** from **Monday, 13th January 2025** to **Friday, 20th June 2025** on a **remote, unpaid basis**. He was appointed to this position following the successful completion of his Backend Internship with the company.

During this period, Saad took on increased technical responsibilities and contributed to the core development and improvement of software solutions supporting the company's operations in **Marine, Electrical and Electronics, IT Equipment, and Technical Services**. His primary areas of responsibility included:

- **Full Stack Development:** Contributed to both frontend and backend development, including application interfaces, server-side functionality, and API integration.
- **Application & Database Development:** Assisted in developing business applications, database structures, data models, and integrations to support company operations.
- **System Maintenance & Optimization:** Took responsibility for debugging, testing, troubleshooting, and improving application functionality and performance.
- **Development & Collaboration:** Worked with team members on feature development, code reviews, Git-based version control, technical documentation, and implementation of software solutions.

During his tenure, Saad demonstrated **increased technical responsibility, initiative, adaptability, and problem-solving ability**. He showed clear professional growth from his previous internship role and contributed responsibly to the company's software development activities.

We appreciate his contributions to our organization and wish him continued success in his future academic and professional endeavors.
